

TIFFANY SEALS

Web Developer | LaGrange, GA | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Web Developer with experience building full-stack web applications using modern JavaScript frameworks and REST APIs. Skilled in front-end development, responsive UI design, and integrating back-end services. Background in healthcare administration and patient systems brings attention to detail, documentation accuracy, and user-focused problem solving. Seeking a Junior Web Developer or Front-End Developer role.

SKILLS

JavaScript (ES6+) · React · Node.js · Express · MongoDB · HTML5 · CSS3 · REST APIs · CRUD application development · Full-stack MERN architecture · Responsive web design · Component-based UI design · API integration · Git/GitHub · JSON · Debugging and testing · VS Code · NPM

EXPERIENCE

Administrative Assistant | May 2025 - Present

Troup County School System · LaGrange, GA

- Maintain confidential datasets for 1,400+ students and support 100+ staff.
- Communicate scheduling updates, records requests, policy information, and withdrawal data between administrators, teachers, and parents to ensure accurate student records and smooth daily operations.

Registered Medical Assistant | September 2020 - December 2023

Multiple States

- Managed patient data and documentation in electronic medical record systems for 40+ patients daily.
- Coordinated patient care communication between doctor and patient for 25+ messages daily and follow-up workflows.

EDUCATION

Bachelor of Science in Web Development (B.S.) | April 2026

Full Sail University · Winter Park, FL

Medical Assistant Program | July 2020

Wichita Technical Institute · Wichita, KS

Honors: Honor Roll (3×), Letter of Excellence (3×).

PROJECT EXPERIENCE

Full-Stack Band Website (MERN Stack) | August 2025 - March 2026

- Built a MERN web app (React, Node.js, Express, MongoDB) managing band media galleries, events, and booking requests.
- Developed responsive React front-end components with reusable UI structure.
- Created RESTful API endpoints with Node.js and Express to support CRUD operations.
- Implemented Git version control and modular project architecture.
